## PROFESSIONAL STATEMENT

I'm a motivated individual with cutting-edge skills in research, especially quantitative research work. I have demonstrated strong competencies in leadership, management and research work using research softwares like Kobo Collect for data collection, Stata and Statistical Packages for Social Sciences for data analysis.

My professional background has led me to have a vested interest in ensuring quality in the university through quantitative research, quality data collection, accurate analysis, and presentation of findings that leads to informed decision making.

I am a result-oriented person with a strict personality who tends to follow systems, structures, processes, and procedures while exhibiting leadership attributes.
